

# Phonics Group Course

## PHONICS FOR EARLY READING SUCCESS

This phonics course is ideal for Year One learners to consolidate their early sound skills and explore sounds and letter learning in greater-depth.

The course is perfect for time-short parents who want their children to have that extra support, but don't have the time or skills to do this themselves.

With my extensive knowledge of phonics and engaging teaching methods, I can do all the hard work for you and make sure your child has the very best start to their literacy learning.

# Phonics Course (Year 1)

£100 per half-term

## SMALL GROUP COURSE (Term-Time, November - July)

- Live and/or recorded option
- Small group learning (max of 6)

A focus on exploring the foundations of early literacy, together we use practical and visual methods to build strong links between sounds, letters and sentence reading.

Learners will be ideally supported to perform to their very best in the Phonics Screening test that takes place every June in Year One.

## Finer Details

Recorded lessons are always available for those who miss the live lesson.

We will use practical and visual methods, and engaging resources to bring our learning to life.

The key focus is on developing greater-depth in the areas of:

- phoneme recognition (e.g. knowing that the letter 'a' is sounded out as 'ah')
- grapheme correspondence (the way of writing down a phoneme)
- 1, 2, 3 and 4-letter sounds/graphemes (r, ch, igh)
- 'tricky' words that do not follow usual phoneme rules e.g. 'the'
- sentence reading

We will use the Read, Write, Inc order of teaching phonics, based on sets 1, 2 and 3. You can find more information about the [programme here](#).

## Dates and Times

Term-time Thursdays 4pm-4.30pm

via Zoom

My courses are delivered in a nurturing manner, allowing time for discussion. I gradually build on skills and gently introduce new learning at an appropriate stage of the course.

Feel free to reach out if you have any questions about the courses.
